#### Fourth Verse:

Down winding path and over the brook  
that leads to the mystical garden fair.  
Shivering trees and quivering leaves that  
shelter the garden everywhere.  
All the surprises you will experience  
and a beauty all so rare.  
So come and see the mystical garden  
and you will find a solace there...  
in the garden.

#### \*Instructions for third verse:

When you arrive at the asterick marking in the third verse,  
jump to the "B flat" section and sing as indicated.

verse and then to CODA.
