Dr. Larry Nickel is an active musician; singing, directing and writing choral music. Edna and Larry live in Vancouver, Canada, close to their children and grandchildren.

"In 1989 I nearly died from viral encephalitis, emerging from a coma after fifteen days. I had to learn how to walk and talk again. Few people survive the rare illness and those who do are often severely brain-damaged. During my long convalescence I wrote and arranged a collection of choral music entitled "Songs My Father Taught Me", which was recorded by the West Coast Mennonite Chamber Choir. My Mom and Dad used to sing songs while I was in the hospital. I was born in the Okanagan Lake in July, when I was nine months old. My three younger brothers and I sang along.

Einstein said, 'There are only two ways to live your life. One is as though nothing is a miracle' and the other is as though everything is a miracle'. I believe in the wonders of God and have experienced much love in my life. Writing music is a way for me to work it all back to others.
