mmm ooo (pure warm tone) ooo-ah

B. *pp* *fff* *fff*  
mmm ah ooo ooo-ah

*♩ = 72*

\* al' to start, gradually increase vibrato... very large vibrato

\* note on such pitch. As vibrato increases, pitch becomes less important (and less accurate). Let your vibrato increase to that the pitch becomes undiscernable (up to an interval as big as a 3rd or 4th). Keep the written the middle of your vibrato. As vibrato decreases, pitch becomes more important (and more accurate).

"The unleashed power of the atom has changed everything except our way of thinking and thus we drift toward unparalleled catastrophe. The solution to this problem lies in the heart of man." *Albert Einstein*
